

# Gayeon (Leah) Lee, MA

gayeonlee@ku.edu

## EDUCATION

---

**University of Kansas**, Lawrence, KS, United States

**Ph.D. Student**, Clinical Psychology (Advisor: Dr. Tera Fazzino)

AUG, 2024 – Present

**Yonsei University**, Seoul, South Korea

**MA**, Clinical Psychology, GPA: 3.83/4.00

JUN, 2022

MA Thesis: “How sense of control affects adherence to COVID-19 prevention guidelines: Examination based on the health belief model” (Advisor: Dr. Soo Hyun Park)

**BA**, Clinical Psychology, GPA: 3.90/4.00

JUN, 2020

- Graduated with High Honors

**University of Illinois at Urbana Champaign**, Illinois, United States

AUG-DEC, 2018

- Exchange student program

## HONORS & AWARDS

---

**University of Kansas**

- **Awardee**, Wrightsman Summer Fellowship, \$1,500

**Yonsei University**

**MA**

- **Recipient**, Accelerated Bachelor’s and Master’s degree Scholarship, \$12,000 (Full tuition fee waiver)
- **Awardee**, Grand Prize, Urban Regeneration project, Seodaemun District, Seoul

**BA**

- **Awardee**, Honors (1<sup>st</sup> Semester, 2016; 1<sup>st</sup> Semester, 2017; 2<sup>nd</sup> Semester, 2017; 1<sup>st</sup> Semester, 2018)
- **Awardee**, Highest Honors (2<sup>nd</sup> Semester, 2016)
- **Recipient**, Merit Based Scholarship, \$7,100

## RESEARCH EXPERIENCE

---

**University of Kansas, Lawrence, KS, United States – Department of Psychology**

*Graduate Research Assistant/ Database Manager*

JUN, 2026 – Present

**CARE lab – PI: Dr. Kelsie Forbush**

- Manage, clean, and validate clinical research datasets using R and SPSS, including recoding, data merging, derived variables, and scoring algorithms.
- Program and troubleshoot Redcap and Qualtrics surveys with automated eligibility, branching logic, calculated fields, and participant routing.
- Develop reproducible data-management workflows and collaborate with research teams to prepare analysis-ready datasets.

*Graduate Student*

AUG, 2024 – Present

**Health and Technology lab – PI: Dr. Tera Fazzino**

1. Multilevel modeling analysis of the effects of protein intake on eating-related variables
- Preprocessed food item-level caloric data into day-level summaries using R
  - Integrated nutritional data with self-reported eating-related responses from ecological momentary assessment (EMA) data.

- Conducted multilevel modeling analyses using R packages (e.g., ‘lme4’, ‘lmerTest’, ‘performance’) to examine how meal-level protein intake predicted meal-level total caloric intake, craving, and eating despite fullness, allowing for random intercepts at the participant level.
2. Review study on EMA studies examining eating behavior
    - Reviewed potential articles based on predefined inclusion criteria in collaboration with colleagues.
    - Extracted and organized key features from selected articles for analysis.
  3. Study on the role of U.S. tobacco companies in the global dissemination of ultra-process foods
    - Reviewed industry documents to extract brand names, global business strategies, and business outcomes.
    - Used R to standardize brand names, classify countries, and generate a comprehensive list of brands by country and region.
  4. Behavioral Activation RCT data from first-year college students: associations of daily monitoring with stress and alcohol consumption
    - Used R packages such as ‘glmmTMB’ and ‘clmm’ to fit linear mixed models and generalized linear mixed models, including zero-inflated negative binomial models.
    - Examined associations of daily activity enjoyment and importance with overall stress and alcohol consumption.

## **Gangnam Severance Hospital, Seoul, South Korea – Department of Psychiatry**

### ***Clinical Research Coordinator***

JAN, 2023 – JUN, 2024

1. Developed a mobile application for somatic symptom management
  - Designed focused group interviews, screened, and recruited patients with somatic symptoms.
  - Interviewed patients and transcribed conversations verbatim.
  - Conducted statistical analyses of the data using SPSS.
  - Developed application content, including screening surveys, psychoeducation on mind-body connection, CBT, and mindfulness; behavioral activation exercises; mood check-in visualizations; and progressive relaxation meditation scripts (writing and recording).
2. Network analysis of panic symptoms and heart rate variability (HRV) indices
  - Obtained meaningful networks consisting of panic and agoraphobic symptoms, and anxiety sensitivity from panic disorder patient data using R packages (e.g., ‘qgraph’, ‘bootnet’, ‘networktools’ and more)
  - Examined ECG signals to extract HRV indices, such as mean RR intervals, root mean square of successive heart beats (RMSSD), normalized high frequency power, and more.
  - Compared the network of the symptoms and HRV indices before and during COVID-19 pandemic.
3. Designed an fMRI study for biomarkers with regards to social emotions
  - Designed an fMRI study to explore neural mechanisms and differences of social emotions.
  - Prepared and submitted paperwork to obtain IRB approval for the research.
  - Acquired physiological signals (i.e., HRV and Respiration) during the fMRI scanning session.

## **Yonsei university, Seoul, South Korea**

### ***Researcher – Yonsei Signature Research Cluster Program***

MAR, 2021 – JUN, 2024

- Edited and created survey questions (CES-D, STAI, CERQ, ERQ, etc.) using Qualtrics.
- Wrote, submitted, and managed required IRB documents.
- Conducted survey item translation work for a comparison between American and South Korean college students and distributed it to South Korean college students.
- Collected data, and performed preprocessing and analysis of the collected data using SPSS and R
- Responsible for various administrative tasks (i.e., budgeting, processing of participant compensation)
- Analyzed the structure of intolerance of uncertainty (IU) scale and examined the relationship between individual items within the IU scale and the associations between IU items and internalizing symptoms employing network analysis using R.

## **Seodaemun district office, Seoul, South Korea**

### ***Researcher – Urban Regeneration Project***

AUG – DEC, 2020

- Determined illegal parking as a major social issue of Seoul for the “Seoul Seodaemun district Urban Regeneration Project” conducted by Seoul city and Yonsei University
- Developed a psychological evidence-based solution to relieve the problem.
- Recorded illegal parking before and after the intervention and compared the results.
- Presented the results to the Seoul Metropolitan Government

#### **Yonsei university, Seoul, South Korea**

##### ***Undergraduate Research Intern***

MAR – SEP, 2019

- Used E-Prime to design a Go/No-go experiment and learned introduction to Bayesian statistics in the Cognitive Neuroscience Lab (Research Advisor: Dr. Do-Joon Yi)
- Tested a cognitive training application for youths with intellectual disabilities and designed the application’s game rewards in the Digital Mental Lab (Research Advisor: Kyongmee Chung)

#### **University of Illinois at Urbana Champaign, Illinois, United States**

##### ***Undergraduate Research Intern***

SEP – DEC, 2018

- Coded infants’ babbling using ELAN program and learned the basics of R programming at Learning and Language Lab (Research Advisor: Dr. Jessica L. Montag)

## CLINICAL EXPERIENCES

---

### KU Psychological Clinic Practicum, University of Kansas, Lawrence, KS

#### Supervisor Alex Williams, Ph.D. (Fall 2025 – Spring 2026)

- Conduct individual assessment and psychotherapy with adults, university personnel, and students from diverse sociocultural backgrounds.
- Utilize evidence-based treatments targeting mood, anxiety, personality, and various DSM-5 related presentations.
- Therapies conducted but not limited to: Cognitive Behavioral Therapy, Unified Protocol
- Conduct comprehensive psycho-diagnostic and cognitive/achievement assessments.
- Assessments conducted but not limited to: BROWN, BRIEF, DIAMOND, SCID-5, WAIS-V, WIAT-IV, MMPI-3, DEKEFS, CPT-3, Nelson-Denny

#### Supervisor Ali Calkins-Smith, Ph.D. (Fall 2026 – Spring 2027)

- Therapies conducted: Acceptance Commitment Therapy

### Yonsei university, Seoul, South Korea

#### *Clinical Psychology Practice Trainee*

JUL-DEC, 2021

Full battery assessments training under supervision of licensed clinical psychologists

- Conducted full battery assessments (clinical interview, K-WAIS-IV, K-WISC-V, MMPI-II, Rorschach test, SCID-5-CV, BGT)
- Conceptualized each case and delivered a presentation in class for discussion.
- Wrote psychological assessment reports and interpreted the result to participants.

### Yonsei Center for Psychological Health, Seoul, South Korea

#### *Administrative Assistant*

JUL-DEC, 2021

- Conducted intake phone interviews, screened clients for assessment and therapy referrals.
- Scheduling appointment of clients.

## TEACHING AND MENTORING

---

### University of Kansas

#### *Graduate Teaching Assistant*

AUG-2024 – Present

#### **Course: PSYC 104 General Psychology**

MAY 2026 – AUG 2026

Instructor: **Gayeon Lee**

- Independently managed an undergraduate General Psychology course, including course administration, grading, and student support.
- Developed and managed the course Canvas site and Achieve integration.
- Communicated with students regarding coursework, deadlines, and academic concerns.
- Provided individualized feedback on student work, with particular emphasis on strengthening academic writing skills.

#### **Course: PSYC 210 Statistics in Psychological Research**

AUG 2025 - MAY2026

Instructor: Susan Marshall & Rebecca Woods

- Develop homework problem sets covering correlation, t-tests, and F-tests.
- Grade homework essay, team projects, and exams
- Assist students in understanding statistical concepts

#### **Course: PSYC 105 General Psychology, Honors**

AUG 2024 - MAY2025

Instructor: Susan Marshall

- Grade homework essay, team projects, and exams

#### **Course: PSYC 104 General Psychology**

AUG 2024 - MAY2025

Instructor: Olivia Tasheuras

- Grade exam essays and check homework

### English Tutor

MAR 2016 – JUL 2024

- Provided English tutoring to middle and high school students.

### Mentors Club – volunteer club which runs the Buddy Program in Yonsei

#### *Volunteer/Korean Tutor*

AUG-DEC 2019

- Assisted international students in adjusting to life in Korea by offering Korean lessons and organizing cultural trips.

### Ethel Town – Yonsei Social Welfare Foundation

#### *Volunteer/Korean Tutor*

MAR-JUN 2017

- Participated in a volunteer program class and provided Korean writing lessons to students living in an orphanage.

## SKILLS

---

- SPSS, R, and MATLAB; Basic knowledge of Python, and E-PRIME
- Skilled in Microsoft Office, certified Computer specialist in Spreadsheet & Database (Korean national qualification for Microsoft Excel VBA and SQL proficiency)

## LANGUAGES

---

- Native Korean, Fluent English, Intermediate Japanese (JLPT N2), Intermediate Chinese (HSK Level 6)
